

MARCH 15-16, 2024

FRENCH EMBASSY, WASHINGTON DC

Professor Patrick Rossignol (Princess Grace Hospital, Monaco) and the scientific committee have the pleasure of inviting you to join us once again at the 8th edition of the Kidney Disease Clinical Trialists Workshop, which will take place in the French Embassy in Washington DC, on March 15 and 16, 2024.

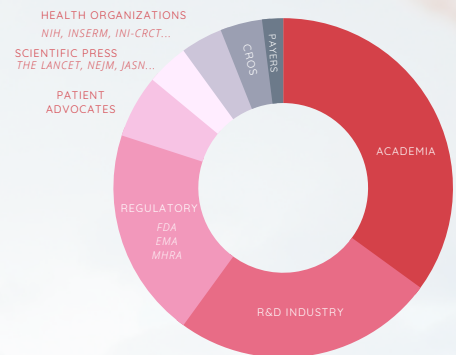

### WHAT IS THE KDCT?

- A high-level think-tank bringing together an exceptional expert faculty from North America, Europe and Asia-Pacific.
- An exceptional scientific program with short presentations followed by a stimulating multi-stakeholder panel discussion.
- A forum to foster an international exchange of ideas and to brainstorm on trial design, conduct, ethics, interpretation, approvability and implementation encompassing drugs, devices, biomarkers and therapeutic strategies for kidney disease.
- A unique opportunity to present and discuss the latest trials in kidney disease.
- Participants from across academia, industry, regulatory, NIH, patient advocacy, scientific press and more.
- Possibility to participate in-person or on a state-of-the-art virtual platform, offering you the chance to watch the sessions live or on-demand following the meeting and connect with participants.

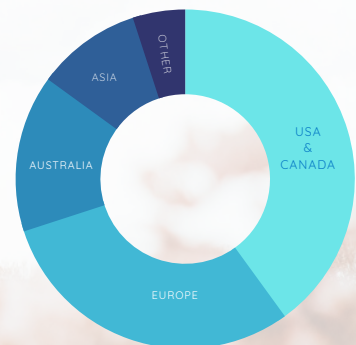

### LEARNING OBJECTIVES

- To produce relevant data from controlled kidney disease clinical trials (beyond cardiovascular outcomes trials) that will contribute to better clinical care.
- To understand the problems associated with making decisions about what constitutes relevant information to improve kidney disease clinical trials and how to satisfy regulatory authorities and payers.
